From Madison.

Correspondence of the Sentinel.

MADISON, Saturday, Jan. 14.

The two Houses of the Legislature held a brief session yesterday. The various subordinate offices were filled, the Senate Committees appointed, and a good deal of business blocked out. Among other resolutions offered in the Assembly were two looking to a thorough investigation of the State printing. The cost of the State printing has increased pretty rapidly, of late years, and it is believed that quite a saving may be effected in this particular branch of our annual expenditures. The recommendation of the Governor, that *both* parties, the State and its Printer, shall be held strictly to their contract, is one to which *neither* party can well take exception.

In the Assembly, this morning, the Speaker announced the Standing Committees.—They are very fairly constituted, and this composition does credit to the judgment and impartiality of Mr. Speaker LYON. I believe that the Democratic minority are entirely satisfied with them.

By Monday both Houses will be well under way and the disposition, on both sides, is to get along with the business of the session as speedily as may be.

The Governor's Message takes well everywhere. The *Patriot*, which is the "official" organ of the Democratic party here, speaks in praise of most of its recommendations.—They are such, indeed, as must commend themselves to the general favor of the people of Wisconsin.

The Lunatic Asylum building has made good progress since last year. It is a very handsome, substantially built edifice, and is expected to be ready for the reception of patients by the 1st of April next. It will accommodate about 75 persons; though the entire structure, when completed according to the plan of the commissioners, will contain rooms for several hundred patients.

The good people of Madison are enjoying a superb winter season. The weather is magnificent and the sleighing as fine as could be wished. The ice, too, that is cut out of *Fourth Lake, in crystal cubes of mammoth* dimensions, is altogether the finest of the kind that I have seen in the State.

The Governor's Guard, Capt. DELAPLAINE, had a *sociable*, last evening, at their armory. The company were drilled at the manual and marchings for an hour, and then succeeded a pleasant dance. The drill was remarkably good; the Governor's Guard being evidently determined to contest the palm for superiority with any other volunteer company in the State. Our own Light Guard must "look to their laurels" in time, if they do not wish to lose them. The dance after the drill was numerously attended and greatly enjoyed.

Very little is said about politics in Madison yet; but next month, when both parties hold their Conventions, no doubt we shall hear plenty on this topic. It is pretty certain that Gov. SEWARD, of New York, will be the choice of the Republicans of this State; and Mr. DOUGLAS, of Illinois, of the Democrats. R. K.

Old Settlers' Festival at Omro, &c.

Correspondence of the Sentinel.

OMRO, Jan. 12, 1859.

DEAR SENTINEL:—Yesterday was a gala day in our good town of Omro. The Pioneers of the town who settled here in 1848 or previously, together with a few of the settlers of '49 who were invited to partake in the festivities of the day, held a festival, when about two hundred sat down to partake of the good things with which the tables were literally loaded,—conspicuous among which was a piece of confectionery got up with exceedingly good taste by Mrs. JAS. OLIN, being a *fac simile* of one of the first log cabin, put up in our town by Mr. A. H. PEASE. After the company had done ample justice to the good things set before them, Mr. G. WIGTON was appointed chairman of the meeting, and the evening was delightfully spent in social enjoyment, enlivened by numerous speeches, toasts, sentiments and anecdotes of the trials of the early settlers in what was then an unclaimed, but blooming wilderness. The company separated highly pleased with the manner in which the evening had been passed, and fully determined that although it was the first it should not be the last of such gatherings held in our town.

Our County Agricultural Society also held their annual meeting for the election of officers, in the city of Oshkosh, last week, when they elected M. C. BUSHNELL, a wide awake farmer of the town of Omro, President, JOS. H. OSBORN Secretary, and J. M. BALL Treasurer, and an efficient Board of Control. Our farmers are waking up to the importance of improved modes of agriculture and the improvement of stock; and with the excellent land for stock raising which it is well known our county possesses, some of the older counties of our State will have to look out or they will have their laurels stolen from them before they are aware of it.

Yours truly, S. C.

ERRORS OF THE PRESS.—Some very singular stories are told about errors of the press, and authors and editors at times find themselves committed in this way to very extraordinary propositions. But we have seldom seen a more thorough inversion of the probable meaning than that produced by exchanging "extinction" for "extension," in the following paragraph from the New York *Journal of Commerce*:

"FRUITS OF ABOLITIONISM.—They are maturing rapidly.

"1. The abolitionists have retarded the extension of slavery for half a century at least."

IMPORTANT DECISION.—A decision was rendered by the Supreme Court of Michigan at Lansing, on the 8th, to the effect that the owners of an undivided interest on a parcel of land has a right to pay the tax on his undivided interest, though the whole parcel is an entiriety.

THE CONGREGATIONAL CHURCH of this place is one of the finest edifices in Northern Wisconsin. Its completion is another evidence of what large-hearted liberality and perseverance can do when times are hard.—It cost over $4,000; and is free from debt.—*Eau Claire Free Press.*

Varieties from Vanity Fair.

Who killed Brown's men?—White Chokers.

Ullman's greatest delicacy of the season—Patti de Foyer Gras.

Theory of casts.—Many theaters are calling public attention to their remarkable casts. Look upon them, and you will discover that in most cases the casts are all in your eye.

Woe on wheels.—There is no such thing as getting credit in an omnibus; you always have to "pay up."

By the way.—Is the new Broadway pavement as good as it is cracked up to be!

After his recent Parisian orgies, in what condition will John Mitchell return to this country?

He will come Bac-chan-alian.

The seat of disease—An invalid's chair.

Con. for amateur violinists—What is the most important point in amateur violin-playing?

A brown study—Wendell Phillip's library.

A distressing case—Beau Brummel.

Cool proceedings—Driven snow.!

A ship in distress—The Speakership.

The game of the Edinburgh brewer—Hop Scotch.

The admonition of the Custom House—Due—Your duty.

SERIOUS ACCIDENT.—On Saturday morning last, Mr. S. D. Sherman came near losing his life by being caught in the machinery at the Machine Shop of Parker and Stone. Mr. Sherman was engaged in oiling a portion of the gearing, when a spike on the main shaft caught his sleeve, instantly drawing him on to the shaft, which is horizontal, and distant about two feet from a board partition built across the shop. Through this narrow space the unfortunate man was whirled at the rate of sixty revolutions per minute. He has no idea how long he remained upon the shaft, as he became senseless after one or two revolutions. His clothes being finally torn off, he was released from the shaft and fell to the floor insensible, in which condition he was found about an hour after the accident occurred. It is owing to the fact that his arm was caught, thus having his head and body drawn close to the shaft, that he was not killed. The soles of his boots were entirely whipped off by striking against the frame of grind-stone which stood nearly under the shaft. His back and one arm were badly bruised, as were also his legs, though it is thought that his injuries are not fatal. He is under the care of Dr. Bicknell.—*Beloit Herald.*

STEREOSCOPIC SPECTACLES.—Professor Wharton has made an important optical discovery, which, while especially advantageous to persons of weak eyes, will be prized by all who appreciate eyesight. It is a form of spectacle glasses whereby paintings and engravings appear as stereoscopic pictures; that is, the figures and objects are seen in full relief and roundness. The glasses may be fitted and worn as ordinary spectacles, or used in an opera-glass, and with an effect as surprising as it is delightful. To frequenters of picture-galleries—to antiquaries fond of studying Gothic architecture, and the features of old ruins—the new glass will be as a double power of vision. A machine has been made for guiding the glasses and we hear that they will shortly be for sale.—*Chambers' Journal.*

THE TRAVEL through this place from Sparta to St. Paul, and from St. Paul to Sparta, is rapidly increasing. The coaches are crowded to overflowing, and upon several occasions of late, extra teams had to be sent out to convey all the passengers. We should not be surprised if the Stage Company increased their means of conveyance.

This route is fast becoming a favorite one with the public, and deservedly so. It leads through a pleasant country—has faithful and accommodating drivers and agents—good living on the way, and above all, the distance to St. Paul can be made six hours quicker than by any other route.—*Eau Claire Free Press.*

HOSMER AND PUTNAM.—It will be remembered that Hosmer and Putnam were arrested in this city some time last summer, on a charge of having, or making counterfeit money. Hosmer has been convicted in the U. S. District Court at Milwaukee, and sentenced to State Prison for three years. Mr. Putnam has been released, and is now safe at home again. Nothing having been proven against him. It is bad enough to suffer for the crime that one commits, without being compelled to suffer while innocent, a long term of imprisonment on the trumped up *suspicion* of a third party.—*Racine Journal.*

HORRIBLE ACCIDENT—A CHILD BURNED TO DEATH.—Yesterday morning about 11:30, a little girl about two years old, the daughter of a poor Irishman named Higgins, who lives in the First Ward, was so severely burned that it died about four o'clock in the afternoon. The child was sitting in a high-chair in front of the stove, with a newspaper in its hands, when the mother left the room. Upon her return she found the child enveloped in flames. Efforts to put the fire out were fruitless, and every stitch of clothing on it was burned up. Medical attendance was procured, but all to no avail. The funeral took place this afternoon.—*Mad. Journal, 13th.*

TURN OVER.—The Winona *Republican* says the three "fairest belles" in that city came out a few days ago to cut a dash in a sleigh by themselves, but in turning a short corner, over they went, and the three belles were delightfully scattered "wrong side up with care." All the town boys shut their eyes, but one poor printer devil, and he came near dying from fright! The girls picked up their hoops and were off with a hurrah in five minutes.

FIRE IN TOMAH.—The building known as Union Hall, in this village, took fire on the evening of the 9th inst., and was burned to the ground. The upper story was used by the Tomah Institute, and for church purposes. The lower story was occupied by Mr. C. B. Southard, as a dry goods store, who had an insurance on his goods to the amount of $2,000. The insurance on the building had run out. It belonged to Miss Mary Ann Gillett. Loss about $500.

FISH.—Horicon fish keep up a good reputation for inexhaustibility. Sleigh loads are daily taken and conveyed to remote parts of the county. The other day, a Dutchman, whom fortune didn't favor, became wrathy, because he could "scoop out," *but half a sleigh load in fifteen minutes!* He quit the business in disgust and prepared to go home.—*Horicon Argus.*

Washington Matters.

WASHINGTON, Jan. 14—3 P. M.

Upon a vote in the Senate yesterday, rejecting the nomination of Mr. Brund as Consul to Havre, the ayes and nays were taken, a circumstance which precludes the idea of any reconsideration.

The contractors for constructing the public works for which Congress failed to make appropriation last session, are here, in force, to urge upon Congress the necessity of immediate organization, that payment be made for material delivered under their various contracts. They are said to be suffering even more than the mail contractors.

An effort is being made to-night to concentrate the Democratic party upon Mr. Boteler of Virginia. It is said that assurances have been given that 91 Democratic votes can be thrown for him.

Boston Matters.

BOSTON, Jan. 14—3 P. M.

Wm. H. Forbes, a student of Havard College, was to-day held to bail in $5,000 for an assault on officer Hilton. He gave the required bail, and left for his home in Milton.

Chas. G. Green, editor of the Post, remitted $2,000 to the Mayor of Lawrence to-day, to be expended in aid of the sufferers there. The money was contributed by the Suffolk club.

The U. S. Agricultural Society.

WASHINGTON, Jan. 14—9 P. M.

The U. S. Agricultural Society have elected Henry Wagner, of Western New York, President, and re-elected B. B. French, Treasurer, and Ben Perley Poore, Secretary. Last night the members partook of a sumptuous entertainment at the residence of W. W. Corcoran.

Mill Burned at Middleton, Conn.

MIDDLETON, Jan. 14—3 P. M.

The Pameacha Mill, occupied by several different companies for the purpose of manufacturing sewing machines, brittania ware, &c., was totally destroyed by fire this morning. Loss about $15,000; partially insured.

Female Seminary Burned.

OXFORD, OHIO, Jan'y 14—3 P. M.

The Western Seminary was burned to the ground this morning. The teachers and pupils all escaped.

THE CITY.

The New City Hall Embroilment.

A majority of the Board of Councilors decided some time since to make certain alterations in the old Market House on Market Square, and fit it up in a suitable manner to be occupied as a City Hall. Among the members of the committee to whom the matter was referred, and who reported favorably, was Councilor ROSEBECK. Since the adoption of the report by the Council, that gentleman has violently opposed the project as "a swindle; a fraud and a disgrace to a civilized community," and has succeeded in creating considerable dissatisfaction among certain citizens of the Fourth Ward. We listened patiently and calmly to Mr. ROSEBECK's grandiloquent remarks made on last Thursday evening, at a meeting of aggrieved citizens at Kilbourn's Hall, and we caught the following points:

1st. The Market House was on the East side of the river.

2nd. The title was not good. The two lots on which it stands belonging to MORGAN L. MARTIN, and to the First Ward.

3d. That the improvements in the building would cost $40,000.

4th. That BYRON KILBOURN has a room in the Fourth Ward on the West side, which he is desirous of renting to the Council.

If we understand this matter aright, the Market House belongs to the city, for which they gave $10,000 bonds and the plea urged in favor of the change is, that the old building can be refitted at a cost of $5,000 and the city thus have a suitable and safe building of its own. There seems to be no doubt in the minds of those legal men who have been consulted by the Council, that it can be secured to the city at a moderate sum—that the question of title is a mere bugbear.

One thing is certain. The present rooms occupied by the city government are inconvenient, out of the way, and unsafe. There are five hundred thousand dollars worth of chattel mortgages, on wooden shelves in the fifth story, unprotected from fire, as are the journals and city archives. It is the duty of the city government to see their property safely cared for.

We are also of opinion that a City Hall, secured at the moderate expense stated, will be advantageous to the city. It will accommodate all the city offices, giving the clerks better rooms and placing them contiguous, an arrangement that will facilitate the transaction of business. It will be cheaper in the end, and more desirable than the present inconvenient rooms in CROSS' Block, for which $4,000 are paid, and it will be an ornament to the ward and city.

We are informed that Mr. BALATKA has taken out an injunction and stopped the proceedings at the building for the present. We are not acquainted with his relationship to the case, but we are confident the citizens of the Seventh Ward would much rather see the old Market House occupied by the city than by a theatre.

SEARCH THE SCRIPTURES.—Some one sends us the following list of Scriptural facts, and signs himself a young man. We publish them, but would suggest that the injunction "search the scriptures," might not be taken so literally as our correspondent receives it, and be of more moral value:

The Old and New Testaments contain as follows:

3,566,480 letters; 773,692 words; 31,173 verses; 1,189 chapters and 66 books.

The word *and* occurs 46,227 times, and the word *Lord* occurs 1,855 times, while the word *Reverend* occurs but once in the Bible, which is in the 9th verse of the 111th Psalm.

The middle and least chapter is the 117th Psalm with only two verses, while the 118th Psalm contains 176 verses.

The middle verse in the Bible is the 8th verse of the 118th Psalm.

The 21st verse of the 7th chapter of Ezra contains the alphabet except one letter.—

The 19th chapter of the 2d Kings and the 27th chapter of Isaiah are alike.

The 2nd chapter of Ezra contains the word *children* 99 times, in which there are 36,783 children enumerated, and there are many not enumerated.

The longest verse is the 9th verse of the 8th chapter of Esther, and contains 90 words.

The shortest verse is the 35th verse of the 11th chapter of St. John, and has but two words.

The 8th, 15th, 21st and 31st verses of the 107th Psalm are alike.

Each verse of the 136th Psalm ends alike.

There are no words or names in the Bible of more than six syllables.

In the book of St. Matthew the word *Jesus* occurs 158 times, and the word *God* occurs 55 times, and there are ten chapters which don't contain the word *God*, as follows: 7th, 10th, 11th, 13th, 17th, 18th, 20th, 24th, 25th, and 28th.

The book of Genesis contains 50 chapters of which number 37 begin with the letter *A*.

There are 19 verses in the book of Revelations ending with the word *God*, and there are 277 verses beginning with the letter *A*.

The third epistle of John contains 1,248 letters and 295 wards, the first verse is the shortest, and the tenth the longest.

In the general epistle of Jude the words *Jesus Christ* are used five times in connection.

The 7th chapter of Nehemiah contains the word *children* 89 times, and the 45th verse contains the same word six times, and there are 59 verses beginning with the same letter:

The first chapter of Exodus cantains 22 verses and 455 words; the word *woman* is used three times, *man* once, *daughter* twice, *son* twice, *children* seven times, and *midwives* six times.

The shortest chapter in the Bible contains 152 letters and 33 words.

IT IS A SINGULAR FACT that correspondents have a great partiality to such *nom de plumes* as *Veritas* and *Junius*. We have no less than three communications before us now, all signed *Veritas*. Were they printed the public might charge them all to one author. We beg of our correspondents to think of some other name; *Veritas* is not a correct name for them all, and *Junius* sounds sadly pedantic. Surely, if a correspondent has originality enough to write for the press, he ought to be original enough to find a new name. If our friends cannot find anything new, let them write to N. P. WILLIS—he supplies literary cognomens for a consideration.

FIRE ON FRIDAY EVENING.—The fire on Friday evening proceeded from a three story brick building on the corner of Twelfth and Cherry streets, in the Ninth Ward. The building was a new one, and owned by Mr. BERNSTEIN. It was occupied as a retail store and a millinery shop, by a merchant named GALENA.

The scarcity of water rendered the efforts of the firemen of little avail, and the building was entirely destroyed. Loss from $3,000 to $5,000.

THE "IRREPRESSIBLE CONFLICT" is a large and well printed weekly sheet, published in this city, devoted to Republican interests.—The first number is certainly well filled with reading matter.

HERE'S TO THE MAN who sprinkled the ashes in front of the Post Office. May he never be flat on his back!

The Municipal Court.

For the Sentinel.

There is a wide spread and very prevalent opinion, in town and county, and among all classes, that this Court will be abolished at the present session of the Legislature.—Whether this arises from the constitution and orginization of the Court, or from just distrust of, or unworthy prejudice against the Judge thereof, is difficult to determine, and immaterial to inquire, as the fact being so is equally fatal to the argument of its continuance. Where shall be lodged the powers, and who shall exercise the functions and perform the duties now devolved upon that Court, exercised and performed by the Judge thereof? The Circuit Court as heretofore? Injudicious and impracticable, if not impossible. The Judge of our Circuit Court is now over-tasked and over-done in the disposition of the civil business of this Circuit, and not an hour of his time can be devoted to the despatch of criminal business without interfering with and delaying the civil business of that Court. Even though the civil business in the Circuit Court had not, during the last year, and is not (as it is) daily increasing, the same good reasons—insufficient accommodations for those in prison, a speedy trial and diminution of expense in maintaining them in prison until after trial—reasons deemed amply sufficient for the establishment of the present separate criminal tribunal, are still in full force. The question then again recurs, where shall the power and jurisdiction now devolved upon the Municipal Court be lodged, and who shall exercise the functions and perform the duties appertaining to it?

After giving to this question all the reflection and consideration that its importance demands, and conferring with several members of the Bar and hearing their opinions upon it, we have concluded that the *best, as well as the most economical* change would be to resuscitate the late Police Court, with the same powers heretofore exercised by it, and devolve upon the County Court the duties now devolved upon the Municipal Court and the Judge and Clerk thereof, and dividing the salary now received by the Municipal Court Judge between the Police Justice and Judge of the County Court in an equitable manner. This alteration, or change, may be made without any confusion or delay in the administration of justice, without the excitement or expense of the election of another Judge, and, we think, with the most happy results in the restoration of the confidence of the community, in the administration of the city and criminal law.

If it should be claimed that the County Court of our county has now devolved upon it all the probate business of the county, with concurrent jurisdiction with the Circuit Court in all cases where the amount in controversy is less than $5,000, and that it has now cast upon it as much labor as one man can perform, without the criminal business now sought to be super-added, we answer that such is not the case; and should it hereafter become so, and the Judge thereof give entire satisfaction as the Judge of a criminal court, a law may hereafter be passed devolving upon the Circuit Court the whole, or a part, of the civil jurisdiction now devolved upon the Judge of the County Court.

In considering this question, one thing *certain* must be borne in mind; and that is, that whatever objections may be interposed to the plan here proposed, or any other plan, the present Municipal Court as at present organized or administered, must and will be changed to obviate the dissatisfaction and revive the confidence of the community in the administration of the criminal law. It is idle and ridiculous to claim that the community and the Bar are satisfied with matters as they are now managed in that Court. It is said that more than half the lawyers of the city, and among them all the most respectable and reputable, have never yet put foot in that Court, and it is further said that with most of them it must be almost an unlooked-for and extraordinary case of a very reputable man charged with a criminal offence of very great magnitude, to overcome their repugnance in going before and seeking a correct and impartial ruling there. We say this without the least ill will to the Judge thereof, and we will add, with our belief of much prejudice among many of the lawyers against him. But the want of confidence being so universal as to have all the evil effects of being well-founded, there is no alternative but a change. ***

SOMETHING ECONOMICAL AND NEW.—Mr. MIHILIS, of Hartford, Wis., has patented an invention which he calls a heat controlling cylinder, to be applied to stove pipes for the purpose of regulating the draught or retarding the consumption of fuel. The thing consists of a series of five valves, so arranged that the heat in passing through the cylinder is retained or retarded, by being made to go over or under the consecutive valves or "dampers," thus converting the cylinder into the most efficient drum, and at the same time diminishing the draught, and saving the fuel. These valves may be set at any point and they will stay there, an iron rod connecting the whole number.

The price of this ingenious piece of mechanism is only five dollars.

They are manufactured by C. A. BUTTLES, on Sycamore street, between Seventh and Eighth.

OUR FRIEND, MR. PETERS, had the good fortune to catch a man stealing his morning paper on Saturday, after patiently waiting for several hours at a crevice in his door. Mr. PETERS informed us that he had the miscreant dealt with according to boot leather.—We commend the rest of the newspaper stealers to Mr. PETERS. He has a sudden and wonderful way with him.

WE WOULD call the attention of our readers to the advertisement of HELPER'S Impending Crisis, which will be found in another column of our paper. It is said to be selling at the rate of from 12,000 to 16,000 copies per week, and the demand is rapidly increasing.

THE SLEIGHING on Saturday night was enjoyed with more of a zest than we have yet seen it. The large sleighs filled with parties in the best of spirits, and the cutters, brim-full of mirth, made the streets resound with a hilarity that exceeded the holidays.

THE YOUNG MEN'S LYCEUM had a very interesting meeting and debate at SIVYER'S Hall on Saturday night. The discussion was animated and well sustained.

The steamer Hungarian has arrived at this port, bringing Liverpool dates of the 29th ult., one day later than those received by the New York.

LONDON, Thursday—Col. Cadagan, attache to the British Legation at Piedmont, has been directed to proceed to the headquarters of Gen. Fanti, at Bologna. It is considered a new proof of the interest taken by the British Government in Central Italy.

It is reported in Paris that M Guissot is engaged on a pamphlet on the temporal power of the Pope.

The Danubian principalities are about contracting a loan of 50,000,000f, with France, Russia and Prussia, pledging land property of the convents.

The Minister of Finance at Rome, has been obliged to sell two million francs consolidated funds.

Advices from Calcutta are to Nov. 22d, and Hong Kong to the 15th. Nothing done in Calcutta. Prices of the leading articles are too high to admit of speculation. The Chinese government are preparing for defence.

Advices from Japan confirm previous reports, that the embassy for the United States would leave in February with a large retinue of subordinates. Confidence was increasing between the Japanese and foreigners.

Advices from China indicate that trade would not be interrupted by the anticipated war.

VIENNA, Wednesday—A telegram from Prince Metternich to Count Riechber, says Count Walewski declares to the Diplomatic Corps of Paris, that while he remains at the head of the Ministry for foreign affairs, the pamphlet entitled "The Pope and Congress," should not be considered the programme of the French Ministry.

VERY LATEST—London, Thursday night.—The English funds slightly relapsed. The Paris Bourse also.

The Pays contains an article, signed M. de Cassaqui, which says that the pamphlet entitled "The Pope and Congress," has been wrongly interpreted by the newspaper. He says that the pamphlet does not propose to deprive the Pope of the legations, but only advises him to admit of the present state of things, and proclaims the necessity of maintaining the temporal power of the Pope. M. de C. adds, the pamphlet confines itself to expressing an opinion, while Congress alone will decide, and ever after that the Church will remain full and entire.

Paris, Thursday p. m., after official hours, an official notice was posted at the Bourse, denying that the Papal Nuncio intended to visit Paris.

The Hungarian arrived at 7 o'clock this morning. Her mails will be despatched soon.

ENGLAND.—The officers of the Great Eastern remain in statu quo, pending an arbitration between the company and Scott Russell.

The ship Bleroye Castle, from Liverpool, for Australia, was wrecked in the English Channel, and all on board (22 passengers and the crew, 34) supposed to be lost.

The ship Lady Franklin, from Liverpool for Maranham, collided at sea with an unknown ship. The latter ship sunk immediately, only one man being saved.

The Government has determined to issue to rifle volunteers, an additional supply of long Enfield rifles.

Duke Malakoff had arrived at London.

Measures had been taken to place Chatham dockyard in a thorough state of defence.

Lord Hastings is dead.

There was a great riot Sunday night among the military at Camp Aldershot. Three military men were shot dead. Soldiers were arrested with rifles loaded with ball cartridges.

The Times correspondent from British Columbia, complains that the American authorities at San Juan, both civil and military, have been guilty of many petty acts calculated to annoy British authorities.

The Paris Constitutionnel says the London Times is correct in considering the pamphlet entitled "The Pope and Congress" as a political expression of good understanding and conciliation between England and France and congratulates itself on the result. It says further that France is far from intending the destruction of the temporal power of the Pope, but will, on the contrary, consolidate it.

SPAIN—No new battles in Morocco.

ITALY—Advices say that the French pamphlet on the Pope and Congress, caused an immense sensation throughout Italy.

Advices from Constantinople state that the Porte had called on Europe to settle the Suez by guaranteeing the integrity of the Turkish Empire. The French Ministers and four other ambassadors had agreed to the arrangement.

LONDON, 29.—The King of Naples has sent decorations and presents to the Director of Police, whose assassination was lately attempted.

Inquest on the Lawrence Catastrophe.

LAWRENCE, Jan. 14—3 P. M.

Mr. Coleridge thought it was intended in the original plan that pilasters should be carried up three stories; don't know why the the plan was altered; considers the projections on which the timbers rested in the upper story, strong and safe enough; if the floors fell in, no walls could resist them had they been two feet thick; the work was done in a most thorough manner; the walls were banded between the window caps and sills; my opinion is that the wall was strong enough to stand a thousand years, it the pillars and floors should not give out.

He had some objections to pillars; being hurried by Knowles, the carpenter, for some pillars, I made requisition upon Bigelow, and some pillars were sent from Boston by the owners; they were not according to our plan, which was like those with clasps, such as are on our other mills; the first load that came were poor ones; made complaint to Bigelow, who said he would write about it to Mr. Putnam. To fasten chimney would shake mill, as it would swing at any rate; mill, of course, not strong as it would have been if chimney was not cracked away from building, as a whole, I regarded it as an imperfect structure; having discovered defect in one of them was somewhat suspicious of them, but he never anticipated such a result as has happened; piece of piller brought in, and on examination found it extremely defective; witness always felt uneasy about iron pillars; when the mill fell attributed it at once to defects in the pillars.

In reply to a question he said he judged from what had been learned from testimony here and reliable statements, that the outside falling was owing to a pillar breaking near the centre of the mill; to break one pillar would leave unsupported an area of 48x20 ft. Great strength of floors would tend to destroy walls when the support gave way, and also to break off the pillars when once started; it was said at first there was a succession of cracking noises, which ran into a general roar; have no doubt that the building fell in that way; the mill is of great width, and each pillar bears two parts of the weight, and each wall one part.

John P. Putnam testified as to the building of the mill, said it was the steadiest he ever knew; had no apprehensions about cracks in the chimnies; sides and ends so clamped together, with iron that we had no apprehension from that cause. He testified further, but his evidence was not important. Inquest adjourned until Monday.

The Lawrence Disaster.

LAWRENCE, Jan. 14—9 P. M.

The excitement touching the catastrophe of Wednesday eve is passing away, and the operatives are at work in the various mills as usual. The Mayor to-day received a donation for the suffers of $300 from Lathrop, Ludington & Co. of New York. So far as known the dead number 69; missing 48; wounded 206. The inquest was resumed this morning. The testimony relates to the construction of the building.

The remains of Mary Barrett, aged 24, and Catherine Sweeney, aged 22 years, were discovered in the ruins to-day. Both bodies were nearly consumed by fire. Four additional bodies were also found, but they cannot be recognized. There are now parts of five bodies at the City Hall. Two are utterly unrecognizable, and the other three can only be recognized by shreds of clothing—One of the latter is the whole trunk of a woman.

On the night of the accident, a little daughter of Jas. Bannon, 10 years old, was pinned fast in the ruins when the flames broke out and seeing that there was no escape for her she took her due bill from her pocket and handed it to another girl near her, and said: "You will be saved; I will not. Give this to my poor father and bid him good-bye for me."

The most complete list of dead and missing that has appeared, is contained in the Lawrence Sentinel, and figures up as follows—dead, 99; missing, 107. It makes the number badly wounded 109, and those slightly wounded, 199.

The following is the testimony of Jas. Rathburn, who was buried with the ruins:

I was employed in the weaving room; had been there but a short time; my place was on the ground floor, at the south end; was talking when accident occurred with Mr. Adams; near column on western side; it was the last pillar but one, towards the south end; there was no pillar between me and the outside; Mr. Adams was on my left side; I threw up my head little to north end of the mill; I asked, "What's that?" I jumped for the door; got my hand on the latch and could get no further; the timbers came rushing, and when they ceased I was down flat, between the two; my attention was called when I was down; it was perhaps a minute; I perceived, when I first looked up, something was cracking in the ceiling; between the lines of the columns; there was no giving way from beneath; my idea was that something was falling through the ceiling, and my idea was to get away from under.

There was two girls leaving the looms directly under; they sat down and were saved by the iron work; I have since seen them.—The single glance that I cast up, gave me the impression that not only the whole floor was coming down, but that something was coming through the ceiling. I ran to the easterly side of the door which was ten feet from me; this was quick as thought. The whole ceiling fell just as I had got my hand on the latch; whether I raised the latch or not, I could not tell.

I was not stunned or hurt. I found myself prostrate on my face. Mr. Adams was just five feet from me but the rubbish was piled solid between us. Not more than 100 gas jets were lighted at the time of the fall.

The London Times, in a leader on Slavery in the United States and the revulsion in favor of Southern States caused by the vagaries of the abolitionists, says: "The union of the American people is not only of importance to themselves but to the world at large. It has been fully proved, not only on the American continent but in our own colonies, that the enforced equality of the European and African tends not only to the elevation of the black, but to the degradation of the white man. We cannot find any sympathy for those who would try in the United States, the plan of a half caste republic, and we trust the Federal Government and the right thinking part of the community will protect the South from a repetition of such outrages as that of Harper's Ferry."

Later from California.

A Republican State Convention will be held at the Capitol, in Madison, on Wednesday, the 29th day of February, 1860, at 12 o'clock M., to choose four delegates from the State at large, and two from each Congressional District, to represent the State of Wisconsin in the Republican National Convention to be held at Chicago on the 13th of next June, to nominate two candidates for presidential electors for the State at large; to adopt such action as may be deemed advisable in view of the approaching election of Chief Justice of the Supreme Court of the State; and for the transaction of such other business as may be thought calculated to advance the interests of the party and promote the success of its principles.

Each Assembly District of the State will be entitled to two delegates in such Convention, except where a district includes more than one County, when each county will be entitled to two delegates.

The committee would respectfully suggest that Assembly District Conventions to elect delegates to the State Convention be held as early as Saturday, the 15th day of February.

Dated Madison, Dec. 29, 1859.

William H. Seward.

The *Southern Confederacy*, a paper printed at Atlanta, Georgia, and which flaunts the name of A. H. STEPHENS from its mast head for President, devotes a leader to Senator SEWARD.

Considering the source from which it emanates, it is not so bad. "Praise from Sir HUBERT is praise indeed."

"The great arch agitator, Wm. H. Seward, has just returned to this country, from an eight months tour in Europe and Asia.—From the time he landed in New York until he reached his home in Auburn, he was feasted, toasted and caressed with an adulation surpassing anything which has occurred for years. His homeward course was as the triumphal march of a victorious General.—At New York, Albany, Utica, Rome, Syracuse, and Auburn, he was met by tens and hundreds of thousands. Bells were rung, buildings were decorated, salutes were fired, speeches were made, and an ovation of which a monarch would have felt proud, was given to the distinguished Black Republican Senator.

Why all this enthusiasm? Why this immense out-pouring of the North to do honor to a great Abolition agitator? We answer, because the political sentiments of Mr. Seward harmonize with that of the Northern sentiment. Mr. Seward is a great political leader. Unlike Hale, and Chase, and Wilson, and Trumbull, and others of the North, who are willing to follow in the wake of popular sentiment, Seward leads. He stands a head and shoulders above them all. He marshals his forces, and directs the way. The Abolition hosts follow. However we may differ from Wm. H. Seward, we concede to him honesty of purpose, and the highest order of talent. He takes no half-way grounds. He does nothing by halves. Bold, fearless, talented, and possessed of all the requisites of a great political leader, turning neither to the right nor to the left. Gifted with a self-possession possessed by few men, he listens to the assaults of his enemies with the most perfect nonchalence, and receives the warm greetings of his friends with a wonderful composure. He is at once the greatest and the most dangerous man in the Government.

Every step of his political life, has been marked by a success. He feels his way cautiously, but when satisfied that his position is tenable, and then he is on safe ground, he leaps forth like some intellectual giant, startles the world by the boldness of his sentiments, and carries all before him by the tremendous force of his arguments.

Starting in life a Whig, he rose from an humble position, and worked his way through the avenues of legislation, up to the Chief Magistracy of the great State of New York, overcoming obstacles before which any other man would have quailed. The Biographer of John Quincy Adams, and the follower in his footsteps, he caught the falling mantle of the great defender of abolition petitions, none other being more worthy than he.

For eighteen years he has stood forth in the Senate of the United States, the great Champion of Freedom, and the stern opposer of slavery. He has fought at every step, disputed every inch of ground, until at last he proclaims in the face of the assembled Senate, and in the language of a proud and haughty victor: "The battle is fought; the victory is won; Freedom is triumphant."—Not satisfied with this jubilant proclamation, he cooly lays down his programme for the complete subjugation of the South. The Supreme Court must be remodeled, and placed permanently on the side of Freedom. An "irrepressible conflict" exists between Freedom and Slavery, and the latter being a crime against humanity, must be wiped out. The Constitution, the bond entered into by our fathers, the instrument which guarantees to each and every member of the Confederacy their vested rights, must be swept away.—There is a "Higher Law than the Constitution."

Thus has the great embodiment of Northern sectionalism stepped up boldly into the arena, and defiantly thrown down the gauntlet to the South, and the North responds in shouts and cheers for the Republican athlete. Will the South accept this challenge? We cannot decline it. We must take up the gauntlet. The time for us to decide this "Irrepressible Conflict" has come. It cannot be put off longer. The din of the approaching battle is heard in the distance. 1860 is upon us. The Ides of November will come. Let the North stand up to her great Representative, meet in sectional Convention at Chicago, and nominate Wm. H. Seward for the Presidency. Let your great statesman be brought forth.

Let the South meet in Convention, and nominate her candidate for the Presidency. Let him be to the "manor born," a statesman true and tried; let him be every inch a Southern man. Let the trumpet sound the charge; let "the Constitution" be our watchword; "let us meet our enemies at Phillippi; let us conquer or die."

RUM DOINGS AT PLOVER.—A correspondent in the Berlin City *Courant*, writing from Plover, Wis., narrates some very singular circumstances in regard to a school teacher, Mr. A. M. MAY, of Ripon, who was engaged to teach school at that place, (Plover,) but was ultimately driven out of the town by the rum-sellers. A cowardly assault was made upon the person of Mr. MAY, the keys of the school taken away, and an insurrection started up among the pupils. The writer adds:

Two or three years ago, in the same place, a teacher was called out of his school-room and horse-whipped, for punishing a child; and it is but a few months since, that a minister was called out of his house, after dark, and thrashed for preaching against the liquor traffic and the like.

These things are but the natural and legitimate results of the rum dealers in league with political hucksters, to retain the power in their hands, which they have so long abused. The late difficulty is not a difference between the teacher and the patrons or pupils, as the great majority of both the latter were decidedly in favor of the school; but between those who have plundered the pockets of the people by having a good chance at the "public crib;" but whom the good sense of the people decided at the last election should have that chance no longer. The "forlorn hope" lies in the "rum power," and in the present instance, the public school—that ought to be preserved sacred and inviolable—is made the battle-ground for waging a most disgraceful political warfare.

A Letter from Buffalo.

Correspondence of the Sentinel.

BUFFALO, Jan. 9th, 1860.

The past fortnight has been particularly noted for its uniformly unpleasant weather, snow, rain and heavy winds have alternated in the most wonderful manner. The sun has looked forth occasionally, only to observe the conduct of the weather, and then to withdraw the light of his countenance from a scene so annoying to the children of men. To-day rain is falling very *gently*, for fear, we suppose, of doing violence to the snow which is gradually wasting and fading away.

This city has not fully recovered from the financial crisis of 1857, and to judge from the conversation of some of its citizens you would infer that it was past redemption. The banking capital is principally controlled by the produce men, who are regarded by the banks with special favor. Many of the manufactories are at a stand still, for the simple reason that the banks will not extend to them the same accommodations that are accorded to the dealers in grain and flour. A gentleman remarked to us, a day or two since, that if an embargo could be laid upon all produce for five years to come, utterly prohibiting the receiving of a single barrel of flour or bushel of grain except what was needed for consumption, that the city would become much wealthier, much more enterprising, and could show at the expiration of that period, a more substantial prosperity, without, than with the grumbling, which ever accompanies the transactions in the produce market—that this wild speculation in grain was the great *incubus* which rests upon the prosperity of the city—absorbing its surplus capital, and compelling its manufacturers and merchants to rely upon their own resources or else to leave the place and establish themselves in localities where they could obtain accommodations. There is probably much truth in what he said.

Buffalo boasts many, very many, beautiful residences. Among them we notice several stately mansions built of Milwaukee brick, which for beauty of finish equal anything of the kind in the city, while the soft, subdued color of the material imparts an appearance which is in pleasing contrast to those built of the *sickly* red brick of this city.

Ex-President FILLMORE, since his marriage with the wealthy Albanian, has deserted the plain wooden dwelling which for so many years he occupied, on Franklin, and now resides in a splendid mansion on Niagara St. Whether the gay and accomplished widow (now Mrs. FILLMORE) instigated the movement is not quite clear. The Ex-President attends Unitarian service quite regularly, and is, we believe, a member of that Church. The letter written by him in response to an invitation to attend the Union meeting recently held in New York, has occasioned considerable excitement in political circles, and produced a marked sensation among his own political followers, who were quite unprepared for the admission that the approval of the Compromise measures by him in 1850, was, as he says, a painful duty. This admission, together with the avowal that the Missouri Compromise should have been left undisturbed, must of necessity drive from him the entire Southern influence which sustained him in 1856.

There seems to be a very general feeling in favor of calling the Republican Convention at an earlier day than that named by the National Committee. The *Tribune* having taken bold ground against the action of the Committee, it will have its effect upon the public mind.

VERITAS.

A BRAVE MARINER.—We published last week a letter from Superior, enquiring after a Norwegian named Frederick Blechfeldt, who had made the voyage from Green Bay to that place last summer, in an open boat; and who, it was feared, had been wrecked. It is a pleasure to say that the brave sailor made the homeward trip in safety, and is now alive and well, living at Fort Howard, on the opposite side of the river. We saw him a few days ago, and heard him tell, in his own graphic and intelligent manner, the events of his trip. He built an open boat last summer at Fisk Creek (on the east shore of Green Bay,) and putting in it some provisions and a small stove, started alone, on the 29th of July, on his "voyage of discovery," cruising along shore to Washington Harbor, thence across the north end of Lake Michigan to Mackinac; from thence to the Sault, and thence around the Canada shore of Lake Superior to Superior City. Here he made a stay of a week, looking through the country, and then started on his homeward voyage, along the Southern or Wisconsin shore.

When off Marquette, and about 15 miles from shore, he encountered a severe gale, which lasted 27 hours. He rode out the worst of it with his frail little shallop, though the waves were tremendous and forcing him to lash himself to the rudder to keep his place in the boat. He was driven near shore, but there being no harbor, he anchored and rode out the storm safely. With no other serious mishaps, he reached home on the 3d of November last, well pleased with the trip and the places which he visited.

Mr. Blechfeldt is an intelligent man, and a frank and pleasing address, which convinces one of his entire integrity.

We have been thus particular in narrating the events of the voyage, in order to satisfy the curiosity of the Lake Superior people, who had seen him on his way and became interested in him; and because it is another instance of the daring of Norwegian sailors. The old surmises about this continent having been visited by the Norsemen long before Columbus discovered it, are based as much upon the roving habits and fearless seamanship of these people, as upon any knowledge of the fact. And, indeed, a voyage from Norway to the American shore, with a good sound craft, was little, if any more adventurous than this one, in an open boat, through three lakes.—*Green Bay Advocate.*

AN INGENIOUS IMPOSTURE.—Some months ago, a peculiar system of swindling, invented in America, and practised in that country on persons in England, was detected and stopped. The plan was to send letters to the address of individuals whose deaths appeared in the obituary of the London papers, purporting to come from some youthful *protege* who had fallen into misconduct and been sentenced to prison, and who, in terms of the deepest repentance, solicited his old and kind "benefactor" to transmit him £10 to some United States post-office. Many executors upon opening these communications were led to comply with the appeal, under a desire to act in accordance with any possible wish of the deceased person; and there is reason to believe that the trade proved very lucrative.

It was completely brought to an end however, by the publicity given to it. The parties have therefore been driven to new expedients, and their plan now is, to transmit letters to the address of deceased persons, purporting to come from a woman whom they have deserted, and who claims for a dying child. This has probably brought more success even than the former plan, since it has awakened the fears of families, and a desire to avert scandal. About a fortnight ago two of these communications reached the hands of mutual friends, and the imposition being thus apparent, a copy of the production was inserted in the *Morning Advertiser.* Each subsequent mail, however, has brought a fresh supply, all worded in nearly the same manner; and it is therefore desirable to remove, by a further exposure, the pain they may have occasioned.—*London Times, Nov. 4.*

A CURIOUS TERMINATION of an intended marriage took place at Halifax on Sunday last. On that day, Henry Greaves and Mary Mitchell had arranged to be married. The wedding party met at the Spotted Cow Inn, in Gibbet Street and proceeded thence toward the Church. The bride found fault with her intended husband for not having his shoes clean, on going along the aisle of the church, and, setting at defiance all remonstrances, left the church and refused to be married.—Dinner had been provided for sixteen, and tea for twenty. After the return of the wedding party the proportion of expenses to be borne by each party formed a further topic of dispute. The disappointed bridegroom refused to pay anything unless he had the ring, which cost him ten shillings, returned, and then declined to contribute more than one-half. The final issue will probably have to be decided in a court of law.

A YOUNG MAN at Yorkshire (England) assizes who refuses to take the oath, because he believed it to be contrary to the Scriptures, was forbidden by the Judge to leave the court during the assizes, and directed, amidst the laughter of the court, to sit up in a corner of a gallery where every one could see him.

THE MISSOURI STATE LEGISLATURE have recently unanimously passed a bill appropriating two thousand five hundred dollars for a monument to the late Col. Benton.

STRANGE OCCURRENCE AT A FUNERAL.—One of the strangest occurrences happened yesterday, at the funeral of Michael Guthrie, who was accidentally killed the day previous on the Northwestern railway, which we have ever been called upon to chronicle. The family of Mr. Guthrie, consisting of a wife and three children, had made extensive arrangements for the accommodation of the friends of the deceased at the funeral. A large number of carriages and a numerous assembly of mourners were present when the undertaker, Mr. Berry, arrived with the hearse. About the same time, another carriage, containing a woman richly and fashionably dressed, was driven to the door. The woman alighted and entered the house. To the astonishment of the assembly, to all of whom she was a total stranger, she greeted the children of Guthrie as her own, and they in turn addressed her as their mother, manifesting the greatest joy, mingled with surprise at seeing her.

The wife, on the other hand, was confounded. She knew not what to say, nor what to think of this sudden and strange appearance of one who claimed also to be the wife of the deceased, and who was addressed by his children as their mother. She knew herself to be their step-mother, having been married to their father in due legal form, and in the full confidence that his first wife was dead. This supposition being now overthrown by the sudden appearance of one claiming to be that deceased wife, the other wife began to upbraid the children for not telling her that their mother was living. The real mother (for such the stranger was) assured her that the children were not to blame, as they, as well as their father, had reason to believe her dead. She had deserted her husband in the city of St. Louis, where they lived, and shortly afterward caused an announcement of her death to be published in the newspapers of that city. But she was not dead. Leaving St. Louis she had lived in Chicago, not knowing that her husband was here, until she saw the account of his death published in the papers yesterday morning. She had come to reclaim her children and to behold for the last time on earth the form of their father.

The appearance of the stranger indicated that she was one of that numerous class of abandoned women who sail along our sidewalks and attract the gaze of licentious men by the gaudy trappings of their trade. It may well be supposed that "a scene" followed the announcement of her relation to the deceased in that funeral assemblage. The friends who had congregated to pay the last rites to the dead suddenly changed their minds, and refused to follow the hearse to the cemetery.—They also declared that the wife (she whom they had supposed to be the only wife) should not do so. The stranger offered to pay carriage expenses for the family; but the friends would not permit it. In the midst of considerable confusion, the stranger invited the three children into her carriage. They obeyed, and the carriage was driven away.—The hearse left the house shortly afterwards, bearing the remains of the deceased, but not a single mourner followed it. On arriving at the cemetery it was rejoined by the carriage containing the new found mother and her children, who, with the undertaker alone witnessed its burial. Then the children were conveyed by their mother to a new home—where we know not, and would that we could suppose it, to be a better one than that from which they were so strangely and unexpectedly taken.—*Chicago Times, 13th.*

MURDER AND SELF-MUTILATION.—An old woman eighty years of age, residing near Auburn, the county seat of DeKalb County, Indiana, beat her husband, who was as old as herself, with an axe and club till he died. This was some six weeks ago. She was lodged in jail, and on the following Sunday she procured a common case knife and sharpened it on the stove pipe in her cell, with the intention, it is said, of cutting her throat; but, fearing the knife was not sharp enough for the operation, she cut or sawed a hole through into the cavity of the abdomen, tore out a portion of the caul, and then seized the large intestine, divided that and cut off a piece about five inches long, and threw the piece into the stove, but it was secured before it was burnt too much for identification. She is now getting well. The reason she assigned for the act was, that she wanted to go where her old man was. No surgical aid was rendered, as it was thought she would die, but the inflammation has subsided—the stomachic end of the intestine protruding about two inches out of the wound, through which the secretions pass. The woman has been partially insane for some time. She tells fortunes and calls herself a witch.

THE FOLKS AT MENASHA are troubled with the spirits. The *Conservator* thus relates the last manifestation:

"A prominent citizen of a neighboring village last Monday evening, while 'under the influence,' went to the pump to light his cigar. He reached his Havana to the pump spout, and requested it to 'give down.' Mr. Pump not complying with his request, he commanded it in a tone of authority to 'give right down,' or he would 'swat him.' After thrice demanding, and being thrice refused, he dealt Mr. Pump a terrific blow with the toe of his boot, which brought our hero's *occiput* in such close proximity to the ice upon which he stood as to grieve away the spirit, and restore the *medium* to consciousness.

AN AFFIANCED BRIDEGROOM KILLED ON THE EVENING OF HIS WEDDING.—About two weeks since a man named Roberts was killed at Lockport, Henry county, and by another named Downs. Roberts was engaged to be married to a young lady of this county, and the time appointed for the wedding was the day subsequent to the one upon which he was killed. The minister and guests had assembled at the residence of the bride, and awaited the coming of the bridegroom. The hour appointed for the performance of the nuptual service had passed, and the assembled company had begun to suspect the young man had played false to his lady-love. Their suspicions, however, were soon dispelled on learning of his death, which turned many glad hearts to weeping.—*Georgetown (Ky.,) Gazette, 4th.*

DR. ANDREW J. BAILEY, of Naples, Maine, where he had been in practice several years and enjoyed the confidence of the people, and was engaged to marry an amiable young lady last Christmas, went to Portland to obtain furniture for his house. After sending home his goods, he wrote his brother that he should not return till the next day, being unwell. Since then he has not been heard from. His horse, sleigh, great coat, and other things were found at the Caledonian House, where he had stopped, and $100 is offered for any information in relation to him.

BIRDS AT SEA.—Captain Barclay, of the ship *Montreal*, reports that on Sunday and Monday last, when off Wicklow Heads, he encountered a heavy snow storm from the N. E. During the prevalence of the storm a large number of birds made the appearance. Some of them perched upon the rigging of the vessel and were caught alive, whilst a large number fell dead upon the decks.—Amongst the poor animals discovered, were linnets, larks, thrushes, starlings, fieldfares, waterwagtails, crows, &c.—*Foreign News.*

DANIEL BALL, Esq., a banker of Grand Rapids, Mich., has bought the controlling interest in the Peninsula Bank ($150,000) at Detroit. It is estimated by his neighbors that he is worth from $300,000 to $500,000, and it is said that about 14 years since his stock in trade amounted to a jackknife, a clay pipe and a plug of tobacco at the time he entered the Grand River Valley, Michigan, where he superintended a gang of hands in opening up the plaster beds at Grand Rapids, leading off with the spade himself.

IT IS SAID THAT, during the excitement at Paris consequent on the loss of the Hua baby, and after the insertion of the advertisement offering a reward for its restoration, more than a dozen babies were brought to Madame Hua, with the hope that a chance might exist of their being mistaken for the right one. Mr. Hua was advised to prosecute the more barefaced of the imposters, but declined to do so.

HEALTH OF THE METHODIST BISHOPS.—A paragraph in a Southern exchange says, that with the exception of Bishop Early, not one of the Southern Methodist Bishops is capable at this time of doing effective work.—Bishops Soule and Andrew are feeble through age; Bishop Paine from the fracture of several ribs; Bishop Pierce from sickness contracted by California exposure and labor; and Bishop Kavanagh from a long contracted spell of illness.

THE BOSTON *Herald* says: "Mr. Stewart, the well known manufacturer of refined candy bearing his name in New York, contributed $10,000 towards purchasing the church edifice in Boston at the corner of Beach street and Harrison avenue, for the first Presbyterian Society."

THE MIND has a certain vegetative power, which cannot be wholly idle. If it is not laid out and cultivated into a beautiful garden, it will of itself shoot up in weeds or flowers of a wild growth.

The Great Secret at Last Discovered!!
JUNIUS JUDSON,
PATENTEE AND MANUFACTURER OF
JUDSON'S PATENT
GOVERNOR VALVES,
FOR REGULATING THE
MOTION OF STEAM ENGINES,
WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.
☞ Shop Rights for sale.
CAUTION TO INFRINGERS.
Patented in the United States, Nov. 5th, 1850. Reissued, Jan. 4th, 1854. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.
This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increased width of opening, with accelerated valve motion. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperture necessary to counteract that resistance; and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governor is continually decreasing in its effects.
I therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really indentical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements;—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations.

Dyspepsia! Dyspepsia! Dyspepsia!!!
What is it? How Cured?

DYSPEPSIA IS OUR NATIONAL DIsease—weak stomach, feeble digestion, distress after eating, costive habits, bilious condition. How many suffer with it and its attendant symptoms of low spirits, bad taste, coated tongue, obstupified head, and attacks of the headache! Yet how few know how to cure it! Generally, because the bowels are constipated, resort is had to cathartics, or laxatives. But such a condition was never cured by cathartics, whose only office is to weaken the digestion and impair the integrity of the entire assimilative system.

But HUMPHREYS' HOMEOPATHIC DYSPEPSIA PILLS—a simple medicated sugar pill—have cured hundreds of the worst and most obstinate cases.—This is done simply by improving the tone and restoring the integrity of the digestive organs, from which result good appetite, regular habits, a clear head, and buoyant spirits. Such a medicine is a gem, and only requires to be known to be appreciated.

Price 25 cents per box, with directions Six boxes $1.

N. B.—A full set of HUMPHREYS' HOMEOPATHIC SPECIFICS, with Book of Directions, and twenty remedies, in large vials, and morocco case, $5; do, in plain case, $4. Family case of fifteen boxes and book, &c.

These remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address,

MOTHERS! MOTHERS!

DON'T FAIL TO PROCURE MRS. Winslow's Soothing Syrup for children teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing inflammation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful Female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arises from teething or any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

THE PUBLIC BLESSING WHICH IS now so universally admitted to exist in Moffat's Life Pills and Phœnix Bitters, is every day demonstrated by their astonishing efficacy in the cases which they are announced to cure. All the complaints of the stomach and bowels, weakness of the digestive organs and of the system generally, bilious and liver affections, night fevers, head aches, piles costiveness, consumption, rheumatism, scurvy, impurity of the blood, or blotched and sallow complexions, soon yield to their curative properties. A single trial invariably secures them the title of the best family medicine now before the public. For sale by the proprietor, W. B. THE SHADOW KISS.

Two deep bay windows lit the room
In which we watched the evening gloom;
In this myself and Lucy sat,
Pater and maiden aunts in that;
The gaslight on the flags below
And on our ceiling cast a glow.

While pater and his coterie
Talk'd matters parliamentary;
Or ruff'd with solemn shake of head,
How prudently the young should wed,
In *my* committee I said, "This,
My dearest, is the time to kiss!"

Lured by the shadowy hour and nook,
The proffer'd pledge she coyly took;
When, lo! by our unlucky fate,
In silhouette, our tete-a-tete,
Noses and pouted lips were all
Obliquely shadow'd on the wall!

So, when the footman brings the tea,
Sombre are they, and scarlet we;
The lamp has prematurely shewn
A truth we had not dared to own;
Small thanks to light untimely cast,—
And yet this kiss was not our last!

—*Once a Week.*

Winter Rules.

From Hall's Journal of Health.

Never go to bed with cold or damp feet.

In going into a colder air, keep the mouth resolutely closed, and by compelling the air to pass circuitously through the nose and head, it may become warm before it reaches the lungs, and thus prevent those shocks and sudden chills which frequently end in pleurisy, pneumonia, and other serious forms of disease.

Never sleep with the head in the draft of an open door or window.

Let more cover be on the lower limbs than on the body. Have an extra covering within easy reach, in case of a sudden and great change of weather during the night.

Never stand still a moment out of doors, especially at street corners, after having walked even a short distance.

Never ride near an open window of a vehicle for a single half-minute, especially if it has been preceded by a walk; valuable lives have thus been lost, or good health permanently destroyed.

Never put on a new boot or shoe in beginning a journey.

Never wear India-rubbers in cold, dry weather.

If compelled to face a bitter, cold wind, throw a silk handkerchief over the face; its agency is wonderful in modifying the cold.

Those who are easily chilled on going out of doors, should have some cotton batting attached to the vest or other garments so as to protect the space between the shoulder-blades behind, the lungs being attached to the body at that point; a little there is worth five times the amount over the chest in front.

Never sit for more than a minute at a time with the back against the fire or stove.

Avoid sitting against cushions in the backs of pews in churches; if the uncovered board feels cold, sit erect without touching it.

Never begin a journey until breakfast has been eaten.

After speaking, singing or preaching in a warm room in winter, do not leave it for at least ten minutes, and even close the mouth, put on the gloves, wrap up the neck, and put on cloak or overcoat before passing out of the door; the neglect of these has laid many a good and useful man in a premature grave.

Never speak under a hoarseness, especially if it requires an effort, or gives a hurting or a painful feeling, for it often results in a permanent loss of voice, or life-long invalidism.

HOW LITTLE PILLS ARE MADE.—A New York correspondent gives an interesting account of a recent visit to Prof. Humphrey's Homeopathic establishment in Broadway.—He says:

"I found the Professor in his study and consultation room, busy attending calls of his patients and answering his extensive correspondence. Upon the table were letters from patients in almost every State in the Union, who write him a description of their cases, and receive their medicines by mail.—I judge from the amount of correspondence that it is becoming a very favorite mode of treatment for old, long standing diseases. In his laboratory all the fluids for medicating his various remedies are prepared by himself, which together with his patients and other items necessarily belonging to his extensive business, must require no small amount of energy and capacity.

"The little pills themselves now so generally known, are made of proper proportions of sugar and starch, and only become medicated after the liquid medicines are poured upon them and they become thoroughly saturated with it. To commence making the pills, the finest dusted sugar is sifted into a large deep pan, which is kept at an uniform moderate temperature, and the mass is worked under the hand while the new material in fluid form is constantly added to it, until by degrees the single pellets, by attrition, attain the size necessary for use, when they are sifted into appropriate grades, and thoroughly dried preparatory to being medicated. This is done by placing them in large bottles, and the liquid medicine poured over them until they are fully saturated, when they are dried and placed in the hands of careful assistants, placed in boxes and cases, properly labelled and wrapped for the market. Some idea may be formed of the popularity of his Specific Remedies when we learn that at his establishment there are prepared for the market, each week, from fifty to one hundred gross of boxes, and about half that number of vials, making an aggregate of no less than one million doses of medicine per week. Immense as this supply is, the demand is constantly increasing."

Sands' Pale Cream Ale.

HAVING RECENTLY PURCHASED the Spring Brewery, on Eighth and Chestnut streets, with the view of making the above mentioned beverage in Milwaukee, I would respectfully solicit the patronage of the people and those Saloons and Restaurants that desire to keep a prime Ale on draught for their patrons.

To those who are familiar with Sands' Chicago Pale Cream Ale, I need say nothing as to its quality; to those who are not, I would simply ask a trial, and I pledge myself to my patrons to do all in my power to make Sands' Pale Cream Ale as popular a beverage in Milwaukee and vicinity as it is in Chicago and surrounding country, and I trust by the assistance of lovers of good Ale, to give Sands' Milwaukee Pale Cream and Amber Ale a reputation second to none in the West.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

BININGER'S OLD LONDON DOCK GIN.

A. M. BININGER & CO.,
(ESTABLISHED 1778.)
SOLE IMPORTERS,
No. 338 Broad Street, New York.

THIS DELICIOUS TONIC, ESPECIALLY for the use of the

Medical Profession and the Family,

Possesses those INTRINSIC medicinal properties, [Tonic and Diuretic] which belong to an

OLD AND PURE GIN.

The business of manufacturing spurious Gins, and offering them as beverages, under the titles, "Aromatic," "Cordial," "Medicated," &c., has become so common that the public are justly suspicious of nearly everything that is offered under similar forms, and the trade has thus been brought into disrepute. It has remained for our house (established in 1778) to supply the pressing popular need, and to inaugurate a new era in the history of the Trade. We trust that our established reputation—founded upon eighty years of experience—abundantly vindicates our claim to public confidence.

N. B.

A comparison of "Bininger's Old London Dock Gin" with others bearing similar names, will establish its superiority, and make other Caution unnecessary.

Put up in Quart Bottles, in Cases of one and two dozen each, and sold throughout the world by Druggists, Grocers, &c.

THE
GREAT WONDER
Of the Nineteenth Century,
PROFESSOR WOOD'S
HAIR RESTORATIVE.

SAYS THE ST. LOUIS, (MO.) DEMOCRAT: Below, we publish a letter to Dr. Wood, of this city, from a gentleman in Maine, which speaks glowingly of the superior merits of his hair tonic.— Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no enconiums, nor useless puffery from the press:

BATH, MAINE, Jan. 20, 1856.

Professor O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair-restorative, I was induced to make application of it upon my own hair, which had become quite gray, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about twice a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has resumed its natural color, and I believe more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two, has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements. I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above with my name attached, is at your service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly, yours, A. C. RAYMOND.

Baltimore, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1854, I was induced to make a trial of your preparation, and found it to answer as the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure. FINLEY JOHNSON.

The undersigned, Rev. J. K. Bragg, is a minister in regular standing, and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally loved. WM. DYER.

Brookfield, January 12, 1858.

Professor Wood—Dear Sir. Having made a trial of your Hair Restorative, it gives me pleasure to say that its effect has been excellent in removing inflammation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit.

Yours truly, J. K. BRAGG.

The Restorative is put up in bottles of 3 sizes, viz: large, medium, and small: the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion and retails for $3 a bottle.

THE SENTINEL.

COMMERCIAL.

SATURDAY EVENING, January 14th, 1860.

Money Matters.

The week closes on a quiet money market, and the only feature different from last week, is a scarcity of Exchange. The selling rate is nominally 1½ per cent premium for Wisconsin Currency, but the only parties that have been able to buy it at this price are the regular bank customers, and they only to a limited extent. Currency has been plenty enough for all the wants of the business community, and bank discounts easily obtained on good paper.

At Chicago Exchange is up to 2½ premium, and very scarce.

Commercial.

The wheat market was buoyant and firm to-day under the influence of a good speculative demand, and yesterday's outside prices were well sustained. The sales were about equal to the amount received at $1,01 for No. 1 on the track; $1,03 for Club delivered; and $1,04 for Extra. There was a little more disposition manifested to operate in flour, and a couple of hundred barrels choice Spring Extra flour changed hands at $4,62@4,75. Dressed hogs were not active, but held firmly, and the sales made do not indicate any decline from the prices paid during the week. Receipts for the week amount to 3,732 head, and for the season to 59,785, including estimated receipts by teams. The packing season is now over and will probably close with receipts of 2,000 to 3,000 more hogs. We find by comparing the number cut and shipped, to date, allowing 3,000 for city consumption, that we have rather under than over-estimated the number brought in by teams. The packing here this season will probably exceed the estimate we made some time ago—15,000—two or three thousand head.

CHICAGO, Jan'y 13th—Receipts are 1,341 bbls flour 9,251 bus wheat, 16,776 bus corn, 5,376 bus oats, 36 do, rye, 2,677 do barley.

The receipts of hogs to-day, live and dressed, amounted to 2,095. There was a good demand for dressed and the market was firm at yesterday's advance, with sales at 5,25@6. The live hog market, however, was very quiet, and the sales were limited at 4,60@4,75 gross.

In provisions there is a very firm feeling, especially with regard to cut meats, which are scarce and in active demand for the New York and Baltimore markets, with sales of bulk sides at 7½c packed; clear sides at 8c packed; pickled hams at 8c in trcs; and bulk shoulders at 5¼c packed—the market closing firm.—Mess pork is not so active, but it is firmly held at $15.25. Lard is in limited demand at 9¾.

The dullness noted yesterday in the flour market was continued to-day, and prices declined about 5c, sales of spring extras being made at 4,75@5,50. Wheat was in better demand, principally speculative, at an advance of ½c was paid—closing, however, rather quiet. About 7,000 bushels changed hands at 1,00 for No. 1 spring in store, and 97@97½ for No. 2 do in store. The milling demand continues fair, and uninspected lots on track were sold at 95@1,04. Oats continue firm with sales at 37c for No. 1 in store, and 35½@37c on track. Rye is scarce and in demand at 81c. Barley firm. Timothy Seed buoyant, with transactions at 2,15@2,20. Highwines steady at 21@21½c.

Weekly Review of Milwaukee Markets.

SATURDAY EVENING, January 14, 1860.

FLOUR—Receipts 2,297 bbls against 3,471 last week. The market still remains dull and prices are entirely nominal. Wheat being relatively 8@9c higher than the prices offering for flour, holders show no disposition to realize. $4,50@4,75 are as high as buyers will go for good to choice Spring Extras, and indeed we do not know that there are any parties at present anxious to purchase at any prices, the markets at the East being so unsettled as not to afford any reliable basis upon which to operate. There is a good local demand for Rye flour, and nice qualities have sold at $3,62½ per barrel. Saturday the following sales were made: 60 bbls ordinary Country Spring Extra at $4,40; 50 bbls do at $4,50; 109 bbls "Sauk City" Spring Extra at $4,75; and 100 bbls "Steam Mills" do at $4,62½.

WHEAT—Receipts 44,304 bus against 40,412 last week. The wheat market has been firm and buoyant for the most part since our last weekly report a strong speculative feeling keeping prices well up. No. 1 Spring has ranged from $1 to $1,02 closing at $1,01 on track. Club has sold at $1,03@1,04 delivered, and Extra at $1,04@1,05. The sales reported daily are as follows: *Monday:* 850 bus No. 1 on track at $1,02; 800 bus do delivered at same price; 150 bus do do at $1,01; 400 bus Extra at $1,04; 150 bus do at $1,05, both delivered. *Tuesday:* 3,000 bus No. 1 on the track at $1,01; 44 bus No. 1 delivered at $1,02; 350 bus do do at $1,03; 850 bus No. 1 and Club mixed at $1,02½ on track; 700 bus Club on track at $1,03; 600 bus Extra delivered at $1,04; 250 bus Club at same price; 700 bus Extra at $1,05; 290 bus do at $1,05; 300 bus Red Winter at $1,05 delivered. *Wednesday:* 4,000 bus No. 1 on the track at $1, 200 bus of which were for delivery all this month; 700 bus do at $1,00½; 350 bus do at $1,01; 250 bus Club delivered at $1,03; 150 bus Extra delivered at $1,04; 100 bus common winter at $1.10.—*Thursday:* 850 bus No. 2 on the track at 99c; 1,350 bus No. 1 in store and on track at $1 (early); 2850 bus do in lots on track at $1,01; 958 bus do delivered at $1,01; 700 bus Club delivered at $1,03; 210 bus do at $1,03½; 575 bus sold by sample for milling at $1,02; 200 bus Extra delivered at $1,04; and 350 bus Red Winter at $1,07. *Friday.* 200 bus No. 1 on track at $1; 2,200 bus do do at $1,01; 620 bus Club delivered at $1,02; 1,100 bus do at $1,03; 350 bus do at $1,04. *Saturday:* 3000 bus No. 1 on track and in store at $1,01; 500 bus Club delivered at $1,02; 1,350 bus do at $1,04; 212 bus Extra at $1,04.

OATS—Receipts 4,212 bus against 1,691 last week.—There has been a good demand for oats, and all in the market sold quickly at 36c. On Saturday the following sales were reported: 850 bus delivered at 35½c; 300 bus do at 36c.

BARLEY—Receipts 2,950 bus against 1,099 last week. There has been quite a brisk demand for this article since our last, the brewers buying freely, and prices have advanced 2@3c. Common sold at 60@62c, No. 1 66@68c, and Extra 70@72c. To-day 138 bus Extra sold at 70c.

CORN—Receipts 3,067 bus against 2,120 bus last week. We have heard of but few transactions in Corn. The prices at which it is selling are 50@52c for ear, 55@57c for shelled.

RYE—Receipts 25 bus against 193 last week. Rye is quoted firm at 66@68c. We have not heard of any sales.

GRASS SEED—Receipts 212 bus. We quote Timothy seed firm at $1,90 to $2,16 for ordinary to prime. The majority of sales were at $2@2,12½. To-day there were sales of 50 bus at $2; and 7 bus at $2,12½.

POTATOES—Are selling at a range of 45@60c.

EGGS—Are worth 14c by the barrel. We note a sale of 56 bbls at this figure.

BUTTER—Receipts 3,128 lbs and 45 firkins. There is a fair enquiry for butter at the range of prices quoted last week, namely: 10@11c for firkin and 12½@13c for roll. We note a sale of 1,000 rolls at 13c on Friday.

HIDES—Receipts 88,851 lbs. The market has been steady with a fair demand at the following quotations: Country green frozen 5½@6c; green salted (full cured,) 6½@7c; dry salted 10@11c; dry flint 12½@13½c.

DRESSED HOGS—Receipts 3,732 head against 2,810 last week. The market has been dull, the only two packing houses now operating here have large supplies on hand, and being scarcely able to keep pace with the receipts, and owing to the temporary suspension of the Lake Ferry there has been no outlet for shipping. The following sales will show the prices during the week:

AYER'S CHERRY PECTORAL.

THROUGH A TRIAL OF many years and through every nation of civilized men, AYER'S CHERRY PECTORAL has been found to afford more relief and to cure more cases of pulmonary disease than any other remedy known to mankind. Cases of apparently settled consumption have been cured by it, and thousands of sufferers who were deemed beyond the reach of human aid have been restored to their friends and usefulness, to sound health and the enjoyments of life, by this all-powerful antidote to diseases of the lungs and throat.—The dry, hacking cough, the glassy eye, and the pale, thin features of him who was lately lusty and strong, whisper to all but him CONSUMPTION. He tries every thing; but the disease is gnawing at his vitals, and shows its fatal symptoms more and more over all his frame. He is taking the CHERRY PECTORAL now; it has stopped his cough and made his breathing easy; his sleep is sound at night; his appetite returns, and with it his strength. The dart which pierced his side is broken. Scarcely any neighborhood can be found which has not some living trophy like this to shadow forth the virtues which have won for the CHERRY PECTORAL an imperishable renown. But its usefulness does not end here. Nay, it accomplishes more by prevention than cure. The countless colds and coughs which it cures are the seed which would have ripened into a dreadful harvest of incurable diseases. Influenza, Croup, Bronchitis, Hoarseness, Pleurisy, Whooping Cough, and all irritations of the throat and lungs are easily cured by the CHERRY PECTORAL if taken in season. Every family should have it by them, and they will find it an invaluable protection from the insidious prowler which carries off the parent sheep from many a flock, the darling lamb from many a home.

Authenticated evidence of these facts, with directions for the treatment of each complaint, may be found in Ayer's American Almanac, of which we publish three millions, and scatter them broadcast over the earth, in order that the sick everywhere may have before them the information it contains.—Druggists and dealers in medicine generally have them for distribution gratis, and also for sale these remedies, prepared by Dr. J. C. AYER, Practical and Analytical Chemist, Lowell, Mass.

ARE YOU SICK?

Then you can't be cured too soon. Don't delay until your complaint is incurable, and then mourn when it is too late. Four-fifths of all the diseases which people the church yards, might be cured by Ayer's Cathartic Pills, if taken in season. Don't go dragging through the Spring, faint, sleepy and listless, because your blood is loaded with bile. Don't wear the Headache, Heartburn, and their kindred disorders, because the stomach is foul. Don't parade yourself around the world, covered with Pimples, Blotches, Ulcers, Sores, and all or any of the unclean diseases of the skin, because your system wants cleansing. Don't show yourself about, lean, haggard, all caved in, because your Stomach and Bowels need strengthening into healthy action.—Ayer's Pills set these things right as surely as water quenches fire. They purify the body and blood, and restore their functions into healthy activity which you can feel as quickly as they are taken.—They are the one great medical wonder of the age, recognized by all who know their virtues, and many thousands know them. Take the Cherry Pectoral for a cough, and the Pills for all derangements requiring a purgative medicine.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass., and sold by JOHN RICE, Milwaukee, J. H. REED & CO., Chicago, and all Dealers in Medicine everywhere.

THE GREATEST

MEDICAL DISCOVERY

OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR

FROM

THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then on the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY,

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

HYPOPHOSPHITES

OF LIME AND OF SODA,

(Made from the Formula of Dr. J. F. Churchill,)

FOR THE PREVENTION AND CURE OF

CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small-pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Moses, M. D., Boonville, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Rust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—*Am. Druggists' Circular.*

"Mr. Winchester is worthy of all confidence and devotes himself enthusiastically to these preparations in all their variety of combination. Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the old treatment. I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in a large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption,

IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.
